Bello Fiore

Bello Fiore ("Beautiful Flower") moulding is inspired by the elegance and beauty of architectural details produced during Medieval and Renaissance Italy. Artisans from Campania, Tuscany, and Lombardy would descend on a cathedral or palace under construction to carve into stone these rich patterns on columns, friezes, and mouldings. Our dies are designed in Italy for accurate replication of these traditional Old-World patterns. These beautiful mouldings are made affordable by Prime-Line's process of applying them to an MDF substrate with state-of-the-art equipment.

As a frame highlights the beauty of a painting, so window casings enhance the graceful elegance of special window configurations.

Prime-Line Custom Casings for specific window combinations, such as eyebrow styles, make it easy and affordable.

HALF ROUNDS, QUARTER ROUNDS, OVALS, CIRCLES, ELLIPSES, AND PALLADIAN WINDOW APPLICATIONS

Prime-Line produces curved casings to match standard radius for quarter rounds, half rounds, circles, ellipses, ovals and Palladian style windows. They are available in popular moulding profiles for many window manufacturers.
